

Anilao with SLS Photography!

from US \$3,650.00pp plus International Airfare, March 15th to 29th, 2020

Join SLS Photography for another Philippine Dive Adventure! We are going to the Nudibranch capital of the World...Anilao! We will be staying at the beautiful Dive Solana resort, eating some fine food and enjoying some of the most amazing critter diving anywhere! Anilao is a **target rich environment!** Rivaling Lembeh Straits in the sheer diversity of critters, Anilao was named the Center of Marine Biodiversity (surpassing Australia's Great Barrier Reef) by the World Conservation Union. Dr. Terry Gosliner of the California Academy of Science labeled Anilao as one of the most bio-diverse locations on Earth. But! Anilao is not limited to macro, the fish filled, healthy, coral studded reefs offer amazing wide angle opportunities as well.

What's Included:

- 14 Nights, 15 Days, Twin Share, A/C Accommodations, 4 meals per day plus snacks and hot chocolate on board the boats
- 12 Diving Days for a total of 36 pre-paid dives, Diving starts on Monday, March 15th
- Transfers from and to Manila International Airport

Not Included:

- Additional dives
- Softdrinks and Alcoholic Beverages
- Nitrox (\$6 extra per dive)

Beach Front & Premium rooms and Non Diver rates are available as well. International Flights are not included. We often do a group booking with partner airlines depending on your departure city.

SLS Photography has nearly 20 years of experience taking eager divers and UW Photographers to this often under appreciated diving paradise. We have first hand experience with every location. We partner only with dive operations who've established a reputation of excellent service, comfortable accommodations, great food and most of all knowledge of the area.

We Look Forward to Showing the Wonders of the Philippines' Reefs to You Soon!

Mabuhay!
