In the afternoon, enjoy the surfing at Cloud 9. Just make sure to wear your rash guard and aqua shoes and ask the resort for a certified surfing instructor. Surfing is Siargao's biggest draw, and the island's picture-perfect waves, the famous "Cloud 9" swell, entices surfers from all corners of the globe. Before going back to the resort, you may opt to stay and watch the sun set from the Watch Tower for a nice sunset photo opportunity. ### ISLAND HOPPING:

Explore and join the amazing Island Hopping Activity to visit the famous 3 islands, **Daku, Guyam, and Naked Island!** You'll have a van transfer (roundtrip) to General Luna's Boulevard where your boat awaits you. Also included is bottled water, towels, a personal butler, and a picnic lunch will be provided in one of the island stops.

**Naked Island** fits the description of this beach destination; fine white sand and cool clear waters. It got its name because of its "nakedness"; there's no shade or almost anything on the island. This very minimalist island is only a few minutes away by boat from General Luna. It has a small sandbar and about 100 meters of sand.

**Daku Island** is the biggest in the trio and has fine bone-white sand, emerald waters, and swaying coconut trees; all of which make it the perfect spot for lunch. It also has a barangay with friendly locals. Explore the palms, and enjoy your picnic lunch with grilled chicken, adobo, mango, pineapple, salad, and drinks.

**Guyam Island** may be small, but its picturesque beachscape, shallow waters, and tropical paradise appeal more than make up for it. Smiling ladies with a small box will greet you and cheerfully let you know there's a fee once you set foot on the island, however your entrance fees are covered. It's small, and one can easily walk from one side of the island to the other, weaving through the 100 coconut palms. The water around the island is crystal clear, however a big reef surrounds the entire island.
